

November 2nd, 2020

New Breeding Organization at DeSeed Denmark A/S

We are pleased to announce the arrival of Henrik ROMME November 1st, 2020 as **Breeding manager of spinach for the world market**. Henrik joins us with 20 years' experience, having held various key positions in the seed industry. Over the course of his career, Henrik has been breeding spinach and cauliflower for Daehnfeldt A/S and Syngenta, worked as Product Manager for DLF and he has been breeding ornamental crops for BG Breeding ApS. Henrik has extensive experience in both classic and "new breeding" technologies.

We are further pleased to announce that Christina Ulrich Hansen came on board as Breeding assistant August 1st, 2020. Christina's educational background as a horticulturalist and her solid experience in breeding will further strengthen the breeding in DeSeed. Christina has been working 10 years for Daehnfeldt, and 10 years for Dümmer Orange.

Ole Mohr Madsen, who has done an excellent job as Breeding Manager for DeSeed Denmark from October 1st, 2018, has pr November 1st, 2020 taken over a new position as Senior Breeder with reduced working time. Ole will continue to support the breeding programs, and will be responsible for managing inventories, pre-basic and basic seed.

The DeSeed Denmark team currently counts to 6 staff, we are continuously expanding.

Ole Johansen

Managing Director
